

# NHS Membership Services

Medipex Ltd. is a Healthcare Innovation Hub, which specialises in supporting the development of innovative ideas to improve patient care.

For NHS organisations, Medipex can provide support to innovative staff seeking to develop and evaluate their ideas and to Research and Innovation teams managing a portfolio of projects.

## We can help you to:

- Promote and support a culture of innovation throughout the organisation
- Capture and assess new ideas to help decide which ones to progress
- Develop robust project plans to develop and test innovative ideas
- Build collaborations with key partners and facilitate appropriate agreements
- Protect intellectual property (IP) and develop strategies to realise benefits through commercialisation
- Develop business plans for development or adoption of a new product or service
- Access funding through grants, commercial partners and investors
- Navigate regulatory pathways for medical devices and software where appropriate

We provide a reliable, agile service that is responsive to the changing needs of our varied NHS member organisations. Our unique offering provides a single point of access to a highly experienced, multi-disciplinary team.

Our services support the objectives of the NHS Long Term Plan, which aims to drive future outcomes improvement through research and innovation, leading to more efficient prevention of ill health, earlier diagnosis, more effective treatments, better outcomes and faster recovery.

"I have an excellent working relationship with our Medipex IP advisor and I always find the advice really helpful. They are especially responsive when we are working on funding applications and I really value their input/knowledge/writing enormously."

**Innovation Lead from a Teaching Hospital**

"Over the course of the years we have been a member of Medipex, they must have saved this Trust tens of thousands of pounds through them negotiating all our IP agreements rather than resorting to the Trust's legal advisors."

**NHS Trust R&D Director from a Teaching Hospital**
